HOME MAKERS SECTION OF FARMERS CONVENTION

MAY 18, 19, 20

From all indications the Home Makers' Section of the East Tennessee Farmers' Convention to be held at the University of Tennessee May 18 thru the 20th will have a most successful meeting this year says Miss Deadrick, County Home Demonstration Agent. An interesting program has been prepared and a large attendance from Blount county and adjoining counties is expected.

The morning session of the first day will be devoted to a round table discussion of the value of extension work as applied to home, school, health, church and good roads. This will be followed by an able speaker on the subject of uniting social service enterprises into one organization. In the afternoon the women will join the men in a joint program. At this session Miss Margaret Ambrose of the Division of Extension will speak on the duty of woman as a citizen and Miss Charl Williams of Memphis will speak on the rural school and citizenship.

The session Wednesday morning will be devoted to clothing problems with a fashion show and other demonstrations under the direction of Miss Nellie Crooks, assistant professor of domestic arts and Miss Victoria Jordan, instructor in art, University of Tennessee. They will be assisted by University girls. The afternoon session will be devoted to such topics as how to make the farm home attractive, marketing of woman's farm products, use of laundry equipment in farm homes and the relation of home and community. Thursday will be devoted to various demonstrations in which club girls will have leading parts.

Miss Deadrick is very anxious to have the women of Blount county give their support and interest to making this meeting a success and that a large number of interested women attend on Blount county day, Wednesday, May 19th.

Tired All The Time-- No Appetite

ADD COLOR IS BAD, TOO—MUD-DY AND BLOTCHED. KNOW WHAT THE TROUBLE IS?

IT IS PROBABLY YOUR BLOOD

THE BLOOD IS OFTEN SLUGGISH IN THE SPRING AND NEEDS PURIFYING—PEPTO-MANGAN WILL HELP

The blood is life itself, and when your blood gets out of order, nothing seems right! You are blue, discouraged and out-of-sorts. Food loses its taste, and sleep does not seem to refresh you. You don't want to work, and cannot have a good time.

Then you say to yourself, "What's the matter with me, anyway?" Maybe you think of your blood, and maybe you don't.

Spring is here. And Spring, more than any other season, is the time people suffer most from blood disorders. Sometimes it is just "Spring Fever"—but conscientious, hard-working folks really suffer from Spring Fever.

They drive themselves, and worry and fret—but get little done. Neither body nor mind will function properly till the blood has purged itself of the winter accumulation of poisons—till it ceases to be sluggish—till it has regained its color and strength.

Years ago people took sulphur and molasses in the Spring to help their blood. But nowadays, instead, they take Pepto-Mangan, a nice-tasting, agreeable and quickly effective blood tonic. Pepto-Mangan is approved by physicians everywhere. It has helped thousands of run-down, listless people get back their old-time vigor and enthusiasm.

Everyone in your family should take a good blood purifier and builder this Spring. Get Pepto-Mangan today. Your druggist has it, in both liquid and tablet form. Ask for Gude's Pepto-Mangan and see that the name "Gude's" is on the package.
